WHY PUDO

INDIA'S FIRST SMART SOLUTION PROVIDER

Two Ways to Work With Us

Already have a last-mile delivery provider? Plug into our PUDO Hub network for pickup and drop-off. Don't have one? We provide the full last mile — delivery and hubs together.

01 — ABOUT PARTNERING WITH PUDO

Fulfilment That Adapts to You

PUDO India works with e-commerce brands two ways — as a pickup and drop-off layer for your own delivery fleet, or as a full last-mile partner when you need both the delivery and the hub network handled for you.

Two Partnership Models

Have Your Own Fleet? Use Our Hubs.

If you already run last-mile delivery, we give your fleet direct access to our Pan-India PUDO Hub network for pickup and drop-off.

No Fleet? We Handle It All.

If you don't have a last-mile provider, PUDO delivers end-to-end — our own last-mile delivery plus the PUDO Hub network, fully managed.

One Platform & API Either Way

A single integration gives your orders OTP-secured hub access, real-time tracking and status sync — whichever model you choose.

02 — HOW IT WORKS

Choose Your Path

Tell Us Your Setup

Let us know whether you already run your own last-mile fleet or need one.

Path A — Use Our Hub Network

Your existing fleet integrates via API and drops parcels straight into PUDO Hubs for customer pickup.

Path B — Full Last-Mile Support

PUDO's own delivery team collects from your warehouse and manages delivery through our Hub network end-to-end.

Customer OTP Alert

Customers get a one-time password the moment their parcel reaches a PUDO Hub.

Verified Pickup

Parcels are released only after OTP verification — for both partnership paths.

03 — BENEFITS

Why E-Commerce Brands Choose PUDO

WITH YOUR OWN FLEET

- ✓ Instant access to a Pan-India hub network
- ✓ No need to build hub infrastructure
- ✓ Lower failed-delivery costs

WITH FULL PUDO SUPPORT

- ✓ End-to-end last mile, zero fleet investment
- ✓ Single point of accountability
- ✓ Faster scale into new cities

Plug In, Your Way

Bring your own fleet or let us run the last mile — either way, get started with one integration.
