PUDO

INDIA

SMART PICK-UP & DROP-OFF
NETWORK

WHY PUDO

INDIA'S FIRST SMART SOLUTION PROVIDER

Cut Failed Deliveries. Scale Without Fleet Growth.

PUDO Hubs give every parcel a fixed, trusted place to arrive — so your fleet drops once instead of chasing doorsteps that are never home.

~80%

fewer delivery trips per batch of orders

Lower

cost per parcel delivered

OPERATIONAL IMPACT

Consolidated hub drop-offs mean fewer vehicles, fewer re-attempts, and a measurably smaller carbon footprint per parcel.

01 — ABOUT THE NETWORK

A Ready-Made Last-Mile Network

PUDO India onboards existing shops, retail counters and business premises into a nationwide network of PUDO Hubs — so delivery and courier companies get instant last-mile coverage without owning a single additional location.

What You Get

Instant Network Coverage

Route parcels into a Pan-India network of PUDO Hubs from day one — no new depots or hires.

OTP-Secured Hand-Over

Every hub release is authenticated with a one-time password, keeping chain-of-custody airtight.

Plug-and-Play API

Seamless integration with your existing dispatch, tracking and order-management systems.

Lower

CO2 impact

"Fewer vehicles, fewer trips, less CO2 — a denser PUDO Hub network means a greener, leaner last mile."

02 — HOW IT WORKS

Integrate in Five Steps

API Integration

Connect your dispatch or OMS to the PUDO platform through our partner API.

Route to Nearest Hub

Parcels are routed to the PUDO Hub closest to the customer instead of a doorstep attempt.

Customer OTP Alert

The customer receives a one-time password the moment their parcel reaches the hub.

Verified Hand-Over

The hub releases the parcel only after OTP verification, protecting custody end-to-end.

Real-Time Status Sync

Pickup, exceptions and returns sync back to your systems automatically.

03 — BENEFITS

AT A GLANCE

With PUDO vs. Without PUDO — The Same 50 Orders, Two Ways

WHY IT MATTERS

Same Orders. A Fraction of the Trips.

Consolidating 50 orders through one PUDO Hub instead of ten separate doorstep rounds means fewer vehicles on the road and a smaller footprint per parcel.
